

**TDI GLOBAL
SOLUTIONS**
One World. One Network. Infinite Possibilities.

OUR STORY

TDI has built a diverse global network of high quality product, packaging and display manufacturers and combined that with worldwide logistics services.

We use that network of exceptional product and service providers to create custom solutions for our clients from design to finished product and delivery.

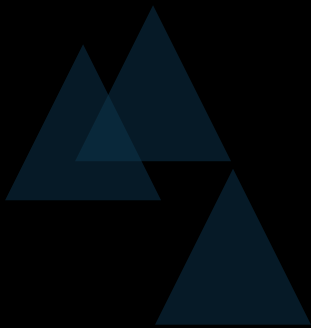

We have over 75 years of combined experience working outside the U.S. with relationships at the highest levels of the companies we represent. Our streamline approach eliminates duplicate and wasteful cost by setting-up direct relationships for our U.S. customers and our high quality, cost effective overseas partners.

Outsource execution, never control.
